Volunteer Club News

On April 9th the Volunteer Club served at the Veterans Community Project (VCP). The VCP is a nonprofit organization started in Kansas City, MO by a team of combat veterans. VCP provides veterans a fully furnished tiny home to offer a sense of security and encourage them to re-engage in their community at their own pace. In addition to their pet-friendly homes, veterans receive full services like dental and medical work in order to strengthen their physical and mental health. The volunteer club helped sort and date food for VCP.
