Future Ready Stallions 25 min	When I talk to people about high school, the majority of people only look at success in terms of grades when it comes to school. But at the same time when talking about successful adults, “grades” never come into the conversation. Our goal is to identify the skills and language that we can use to articulate what it means to be life, career, and college ready.	<ul style="list-style-type: none">- Define “Future-Ready Stallion”- Will table this conversation for a future meeting
